

Mew Games is a game developing studio of Young Game Developers Company.

We established this company in 2014 with 5 developers and now we have 20 Developers in our Studio!

We are developing:

- PC Games
- Mobile Games
- HTML5 Games

Also, we are Publishing Mobile Games in Iran.

We are interested in developing games for famous animations and brands. We have a great deal of experience in expanding the game with Dirin Dirin animations and It has made us more than a million dollars!

Our other gaming products have been developed for clients' clubs of banks and large organizations and football clubs fans.

We have developed 3 PC games and more than 30 games for mobile and more than 15 games for HTML5 platform.

Our Company is one of Top Three game company in Iran Video Game Foundation Ranking (Hamgara).

We are interested in Investments and Partnership with Turkish Companies about game Developing and also video game competitions on TV Channels.

You can see our projects in www.MewGames.ir website.
